

Michael Powell stated this week that Sinclair Broadcasting cannot be stopped from airing the John Kerry smear film because there is "no precedent" to stop them. Does Mr. Powell need the American people to point out to him that the reason there is "no precedent" is because NEVER has there been an anti-candidate commercial, posing as a 'documentary' aired days before a presidential election. Mr. Powell isn't aware of this fact?

The airwaves belong to the American public, not to Sinclair. The fact that they are going to misuse public airwaves for political purposes of the most vicious kind, shows we must have stonger media ownership rule. It is time for the FCC to ensure liscensing renewals entail scrutinizing an applicant's adherence to the law.

We, the American public, depend upon the FCC to uphold these laws and to ensure our interests are being protected.

If Sinclair is allowed to air the propaganda piece, then there MUST be equal time given to air pro-Kerry material. Thank you.
